Explanation on determining LTV & Loan Amount:

- Locate appropriate Housing Lates and corresponding Credit Score line. Ex. Full Doc 0x30 & 620 = Max LTV 95% & 650k for O/O Pur/Refi (R/T or DC) of SFR, PUD or Low Condo.
- Start at the Gray cells for the Housing Late and Credit Score combination. Subtract all applicable cumulative LTV adjustments. Ex. Full Doc, Cash-out (-5%) & SFR N/O/O (-5%) = -10% LTV adjustment. Then subtract the 10% adjustment from the Grey cell of 100% = 90% max LTV with a max loan amount of \$700k for a cash-out of a SFR N/O/O.

Note: Applicants who qualify for an LTV posted above may choose any lower LTV.

Cumulative LTV Adjustments:

Cash-Out (Cash in hand)	-5%
Second Home	-5%
N/O/O*	-5%
N/O/O* and Stated and Cash-Out	-5% Additional
N/O/O* Low Condo	-5% Additional
N/O/O* 2-Unit	-5% Additional
3-4 Units	-5%
High Condo (O/O & Second Homes only)	-5%
Rural (O/O & Second Homes only)	-5% Minimum
Minimum Tradelines Not Met	-5%
Declining Markets	-5% Minimum

*Non-Owner Occupied property restrictions apply
 Note: Reductions to LTV begin at Max LTV's posted for mortgage history/credit score. If the cumulative adjustments result in an LTV not reflected in the above matrix, the transaction is not eligible for financing.

Additional Guidelines:

Minimum Credit Score: 620. Credit Scores <620 not allowed.
 Minimum Loan Amount \$50,000.
 Stated Income 640-679 max LTV 80 LTV/CLTV; 680+ max 85% LTV/CLTV
 12 mos. Personal Bank Statements - Max LTV 100%
